CORE SKILLS

React Native / TypeScript / Expo

Kotlin / Java / Jetpack Compose

MVVM / Clean Architecture

Coroutines / Flow / Hilt

Retrofit / GraphQL / Room

CameraX / ML Kit / TFLite

Supabase / Firebase

DELIVERY & TOOLS

Git / GitHub / Pull Requests

GitHub Actions / CI/CD

Jira / Agile / Scrum

Confluence / Documentation

Code Reviews / Release Builds

FOCUS

Mobile architecture

Production delivery

Computer vision

Team collaboration

NIZAMUDDIN ALI AHMED

SENIOR REACT NATIVE ENGINEER

ANDROID / REACT NATIVE / CI/CD / COMPUTER VISION

PROFESSIONAL PROFILE

Senior Mobile Software Engineer with 6+ years of experience in production Android engineering and hands-on React Native/TypeScript development. Built an Expo-based OCR application with clean architecture, Supabase AI integration and automated APK delivery. Extensively used Git, Jira and Confluence at Vantage Circle in Agile engineering workflows.

PROFESSIONAL EXPERIENCE

VANTAGE CIRCLE

Senior Android Developer | Jul 2020 - May 2026

- Extensively used Jira, Git and Confluence while working at Vantage Circle in a five-member Agile development team; organized sprint tasks, tracked bugs and progress, and maintained shared technical knowledge.
- Used Git-based branching, pull requests and code reviews to support collaborative development, integration and production release readiness.
- Migrated 60%+ of a legacy MVP codebase to MVVM; modernized 25+ screens with Jetpack Compose and Material 3.
- Built camera-based workout recognition using pose landmarks and TensorFlow Lite for squats, push-ups and jumping jacks; added posture, lighting and sensor validation.
- Designed feature-based modules for Classifieds and MyVouchers; migrated SQLite to Room and integrated Retrofit, Apollo GraphQL, Coroutines and Firebase.
- Investigated performance using Android Profiler, applied Kalman filtering to location signals, and supported Android 15 platform changes.

GEEKWORKX TECHNOLOGIES

Web & App Developer | Jun 2018 - Jun 2020

- Developed Android applications including Wify Cab and Ind Cab; used React Native for CRM applications, integrated REST services and resolved production issues.

KBG SOFTWARE

Android Developer | Apr 2018 - Jun 2018

- Maintained school-focused Android apps, delivered features, fixed defects and integrated REST APIs.

ENGINEERING

Production Android

On-device ML

AI / LLM integration

Backend APIs

SDKs & Gradle tooling

Cross-platform UI

COLLABORATION

Jira sprint & issue tracking

Confluence documentation

Git collaborative workflows

GitHub Actions pipelines

PROJECTS & ENGINEERING

SHIPPED PRODUCTS / OPEN SOURCE / DELIVERY

SELECTED PROJECTS

REACT NATIVE OCR APP (FEATURED) | 2026

React Native, Expo and TypeScript app with Camera and Saved tabs, image capture/gallery, Supabase AI analysis, Zod DTO validation, domain/data/presentation layers, Jest tests and GitHub Actions APK builds.

FindMyRecipe | 2026

Android ingredient-photo recipe discovery using Jetpack Compose, Hilt, Retrofit, Supabase Edge Functions and AI vision.

FormFit | 2026

Camera-based fitness tracking with ML Kit pose detection, TensorFlow Lite, exercise analysis and Record & Repeat.

Digital Me | 2026

Conversational portfolio assistant using knowledge retrieval, focused LLM context and backend diagnostics.

Tapori AI | 2025

Mumbai-style AI assistant with chat, authentication, credits, Razorpay payments and Supabase Edge Functions.

ArchGuard | 2026

Gradle plugin and CLI for enforceable Android architecture rules, validation and reporting.

SonicBridge | 2026

Android TV/mobile local-network audio streaming with AudioPlaybackCapture, WebSockets, PCM and AudioTrack.

Biometric SDK | 2025

Reusable lifecycle-aware Android authentication library built around BiometricPrompt.

CI/CD, AGILE & ENGINEERING DELIVERY

- Built GitHub Actions workflows for Android release APK generation and automated build delivery.
- Used Jira extensively at Vantage Circle for sprint organization, task/bug tracking and coordination within a five-member Agile team.
- Used Confluence for technical documentation and Git for branching, merging, pull requests and team-based code reviews.

EDUCATION

B.E. - MECHANICAL ENGINEERING

Royal School of Engineering and Technology | 2013 - 2017
